Subject: RE: Class II Primacy documents

The current chronology is the one Sylvia sent out this morning at 9:24 am.

This is a shorter, more organized version of the working list of documents that we used in the past. That document list has not been updated since around the end of September and does not include the last set of documents sent from DOGGR.

Thanks Brett. Is there also a chronology of events/key documents that ORC prepared? I don't believe we have seen that. David

Subject: Class II Primacy documents

Sylvia –

Here are the documents you requested, except for Version “B” of the primacy MOA and the HQ file version of Attachment 2 (which has notes identifying aquifers not to be exempted), which may need to be scanned. I added the main primacy transmittal from R9 to HQ.

I will try to send the State’s primacy application separately.
